**BLUM**  
**NOVOTEST**

## THE BLUM-NOVOTEST GROUP

Established in 1968, Blum-Novotest GmbH is one of the globally leading manufacturers of innovative as well as high-quality measuring and testing technology. Today the enterprise employs ca. 600 associates in the three business divisions **Measuring Components** for the international machine tool industry, **Measuring Machines** for automotive industry, suppliers and machine tool industry and **NOVOTEST Testing Technology** for the automotive, hydraulic and aircraft industry.

● Blum-Novotest Subsidiary ● Blum-Novotest Sales & Service ● Blum-Novotest System Integrator

## THE BUSINESS DIVISION NOVOTEST TEST ENGINEERING

NOVOTEST is the specialist in test stands for the automotive and hydraulics industries within the Blum-Novotest GmbH. Planning, designing and engineering functional, capacity and durability test stands, as well as the integration into customers' automation systems, is our scope of supply and services.

This business division provides a product range from developmental test stands up to interlinked batch test stands for transmissions, drive shafts, steering systems, hoses and hose assemblies.

NOVOTEST is certified to ISO 9001 and VDA 6.4
